

PRIYANSHU RAJ

9006720546, Bangalore, India

ipriyanshu009@gmail.com, in/priyanshuraj009/, github.com/priyanshuraj009

PROFESSIONAL SUMMARY

AI Developer specializing in Gen AI, Agentic AI, LLMs, voice and chat agents, prompt engineering, and intelligent automation. Skilled in building and QAing enterprise AI solutions using RAG, ElevenLabs, Make.com, Zapier, GoHighLevel, and API integrations.

EXPERIENCE

AI Developer
NeuroDrift INC

July 2026 - Present
Full time - Remote

- Develop AI-powered applications, enterprise chatbots, and voice AI agents using LLMs, ElevenLabs, and modern AI technologies.
- Design and optimize Agentic AI workflows using prompt engineering, RAG, and structured automation.
- Build and deploy voice and chat agents for enterprise use cases, including end-to-end agent development, testing, and QA.
- Integrate AI solutions with APIs, CRMs, telephony platforms, and enterprise tools such as GoHighLevel (GHL).

Associate Prompt Engineer
NVIDIA Graphics Pvt. Ltd. (via Randstad Payroll)

October 2024 - May 2026
Full time - Remote

- Maintained quality scores above 90% and productivity metrics above 95% while delivering high-volume, high-accuracy annotation outputs.
- Performed Quality Assurance (QA) reviews on annotated datasets, identifying inconsistencies, guideline deviations, and quality gaps to ensure dataset reliability.
- Trained and mentored new team members on annotation methodologies, quality standards, and productivity best practices, helping improve team KPIs.
- Delivered project training sessions and knowledge-sharing workshops to support process standardization and operational excellence.

SKILLS

Technical Skills: Gen AI, Large Language Models (LLMs), Agentic AI, AI Agents, Prompt Engineering, RAG, Voice AI, Conversational AI, Chatbots, API Integration, AI Safety, QA Workflow Automation, Make.com, Zapier, GoHighLevel (GHL), ElevenLabs, Python

Soft Skills: Analytical Reasoning, Problem Solving, Team Collaboration, Technical Documentation, Communication, Process Improvement

EDUCATION

Bachelor of Technology - Presidency University, Bangalore
Computer Science and Engineering with specialization in Data Science

September 2020 - June 2024
8.36/10.00 CGPA

PROJECTS

RAG Based QnA System - Python, FAISS

RAG based app that lets you "chat" with your own documents and get grounded, source-cited answers. ([View](#))

Prompt Evaluation & Response Scoring Framework - pandas, Streamlit

An LLM-as-judge framework that automatically scores AI responses on relevance, clarity, correctness, and conciseness to test and improve prompts. ([View](#))
