Professional Summary

AI and Data professional with 1+ years of hands-on experience in Generative AI, Autonomous Vehicles, and ML model development at NVIDIA. Expertise in prompt engineering, Chain-of-Thought reasoning, data annotation, and model evaluation. Proven track record of delivering high-quality AI solutions with 95%+ QA scores and processing 15,000+ annotations for production systems. Strong foundation in machine learning algorithms, data-driven problem solving, and cross-functional collaboration.

EXPERIENCE

Associate Prompt Engineer <i>NVIDIA Graphics (via Randstad Payroll)</i>	Oct 2024 - Present Remote
---	-------------------------------------

- Engineer and optimize Chain-of-Thought (CoT) reasoning prompts for Large Language Models, improving logical reasoning and contextual accuracy for production AI systems
- Train and validate autonomous vehicle perception models in the AV Alpamayo project, contributing to cutting-edge self-driving technology development
- Achieved 95%+ QA score on Skeleton Motion Description Project through rigorous quality assurance and data validation processes
- Delivered 15,000+ high-quality video annotations for NVIDIA's LLM training pipelines, ensuring data accuracy and model performance
- Collaborate with ML engineers and researchers to refine prompt strategies and improve model outputs for generative AI applications

EDUCATION

Bachelor of Technology in Computer Science <i>Presidency University, Bangalore</i>	Sep 2020 - Jun 2024 CGPA: 8.36/10.00
--	---

- Relevant Coursework:** Data Science, Data Analysis, Database Management Systems, Deep Learning Techniques, Reinforcement Learning, Software Project Management

Technical Skills

Programming Languages: Python, SQL, Java

Machine Learning: Scikit-learn, TensorFlow, PyTorch, Logistic Regression, Decision Trees, Random Forests, Neural Networks

Generative AI & LLMs: Prompt Engineering, Chain-of-Thought Reasoning, Model Evaluation, Fine-tuning, GPT, Claude

Data Skills: Data Annotation, Data Preprocessing, Feature Engineering, QA/Quality Assurance, Statistical Analysis

Computer Vision: Video Annotation, Object Detection, Autonomous Vehicle Perception, Image Processing

Tools & Platforms: Git, Jupyter Notebook, Pandas, NumPy, Matplotlib, Google Analytics, URL Builder

Soft Skills: Team Leadership, Cross-functional Collaboration, Problem Solving, Critical Thinking, Communication

PROJECTS & ACHIEVEMENTS

- Intelligent Battery Management System** *Research Publication - IJRAR | 2024*
 - Published research on intelligent battery management systems, demonstrating technical writing and research capabilities
- Fraud Detection ML Model** *Python, Scikit-learn, Pandas | 2024*
 - Engineered fraud detection system using ensemble methods, achieving high accuracy on imbalanced transaction data
- Awards**
 - Runner-Up at Visionet TechThon 2023 - Demonstrated problem-solving and coding skills under time constraints.
 - SOF Cyber Olympiad Winner 2019 - Secured an International Rank of 231 and Zonal Rank of 20 in the finals of SOF National Cyber Olympiad.

CERTIFICATIONS

- | | |
|---|-----------------------|
| Machine Learning with Python – Level 1 | <i>IBM</i> |
| Data Mining | <i>Great Learning</i> |
| Java, Python, MySQL | <i>HackerRank</i> |
